

Background for Automating Patient Access

Organon is leveraging CoverMyMeds' trusted technology and solutions to better provide access to patient support services beyond electronic prior authorization. CoverMyMeds enables access to patient support services for The Organon Access Program (OAP) while providing consistent visibility into the patient journey

Patient Support in One Centralized Platform

The Organon Access Program (OAP) is now available within CoverMyMeds.

Within your CoverMyMeds account, you can access integrated patient support resources following the prescription to start of therapy, helping to consolidate processes and access for patients.

Now with CoverMyMeds, you can electronically:

-  Enroll patients in patient support program
-  Perform benefits verification (BV)
-  Submit prior authorizations and receive technical support for formulary exceptions and appeals
-  Access co-pay assistance
-  Track patient case status

Key benefits

-  No additional technology required, eg, EHR integrations or equipment
-  Find all access activities and OAP support services in one centralized location
-  Auto-population of patient demographic (non-clinical) information you've already provided into responsive forms
-  Dedicated CoverMyMeds case managers available in real time via phone or live chat

Overview of hub enrollment

Patients can be enrolled through CoverMyMeds to access the full suite of resources through The OAP, which includes:

- Benefits verification
- Prior authorization and appeal support
- Co-pay assistance and information on financial support
- Referrals to independent assistance foundations

Visibility into the entire patient journey for your patients is enabled through the connected patient case view. Dedicated CoverMyMeds case managers are available for support and to answer your questions.

Information to have on hand

The information below is needed to enroll a patient in the patient support program.

- Patient's demographic information
- Patient's primary medical, secondary medical, and/or pharmacy insurance information
- Patient email address and/or phone number

Patient HIPAA Authorization may be required for enrollment. If patient authorization is required, but is not captured in the office, CoverMyMeds will contact the patient on your behalf to capture the patient or caregiver's signature.
